Pathology

# An afternoon of EUROPEAN COLPOSCOPY

WEB EVENT

**Friday 20 October 2023**  
**17:00 - 21:00** (Athens time, CET+1)

Dedicated to

*Jo Jordan & Walter Prendiville*

## INVITATION

Dear colleagues and friends,

Personally, along with many other people involved in **Colposcopy & Cervical Pathology in Europe**, I hold great respect for two remarkable gentlemen, namely Jo Jordan and Walter Prendiville, who through their kindness, politeness, and nobility, have further elevated their academic and clinical accomplishments. They serve as an inspiring model for younger generations of medical doctors, and we believed the time had come for them to be honoured simultaneously.

The proper opportunity unexpectedly presented itself with a recent interest around the elimination of reserve cells for the prevention of cervical cancer, which sparked an extensive discussion and a flurry of emails among the members of the **European Federation of Colposcopy (EFC) executive**. This prompted us to realize that it was also time for a comprehensive and in-depth exploration of the existing evidence on the long-term outcomes of CIN treatment, as well as potential underlying mechanisms. Furthermore, as the **HeCPA (Hellenic Cervical Pathology Academic) group**, we have also contributed to the relevant literature over the past few decades and thought it appropriate to hold this unique seminar whilst we host our annual meeting.

Here we stand today, joined by many important individuals who have enthusiastically accepted the invitation to this event. We believe that this excitement clearly indicates a common interest in the significance of this topic and as such a thorough discussion is due. The intention would be to develop a consensus around the evidence base and the clinical / translational research that still needs to be done. Within this frame, we will also value the insight of Joe Jordan and Walter Prendiville and their wisdom on the key issues.

With best regards,

**Professor Evangelos Paraskevaidis MD, PhD**

*Ioannina Medical School, Dept. OB-GYN*

*President -Hellenic Society of Colposcopy & Cervical Pathology (HSCCP)*

*-Hellenic Cervical Pathology Academic Studies Group (HeCPA Group)*

# An afternoon of European Colposcopy

A Workshop on Long Term Outcomes Following Treatment of CIN

## Topics

Preclinical and Clinical Evidence on Risk of Preterm Delivery  
Cervical Neo-Carcinogenesis  
Level of Awareness  
Balance of Risk to be Achieved

*By European Expert Consensus Review and Discussion*

*Dedicated to*

**Jo Jordan and Walter Prendiville**

*for their lifetime offer and dedication to the European and Global Cervical  
Pathology and Colposcopy*

17:00-17:15

## OPENING

*Evangelos Paraskevaïdis/HSCCP, HECPA*

*Emmanuel Diakomanolis/EFC, HSCCP*

*Maggie Cruickshank/EFC*

*Joseph Monsenego/EUROGIN*

*Jean-Luc Mergui/IFCPC*

*Joe Jordan/EFC, BSCCP*

*Walter Prendiville/IARC, IFCPC*

17:15-18:30

## PRETERM DELIVERY

**Chairs:** *Joe Jordan, Walter Prendiville, Pierre Martin-Hirsch, Emmanouel Diakomanolis, Xavier Carcopino*

*(In an historical order)*

Comparison of Treatment methods: **Cochrane Syst. Rev. 2000**

*Pierre Martin-Hirsch, Evangelos Paraskevaïdis, H. Kitchener*

Prematurity after excisional treatment, **Lancet 2006**

*Maria Kyrgiou*

Severe prematurity & perinatal mortality, **BMJ 2008**

*Marc Arbyn*

Fertility after excisional treatment, **BMJ 2014**

*Anita Mitra*

Prematurity according to the depth of excision, **BMJ 2016**

*Maria Paraskevaïdi*

Consensus Terminology for Cone Dimensions, **Lancet Oncol 2022**

*Xavier Carcopino*

NHS Guidelines

*Pierre Martin-Hirsch*

Friday 20 October 2023

## ANTENATAL CONSIDERATIONS

**Chairs:** *Maria Kyrgiou, Apostolos Mamopoulos, Errikos Moulia*  
**High risk clinics, risk prediction of PD, management in future pregnancies**  
*Phillip Bennett*

18:30-19:00 COFFEE BREAK

## 19:00-19:50 CERVICAL NEO-CARCINOGENESIS

**Chairs:** *Jacob Bornstein, Deirdre Lyons, Maggie Cruickshank, Fani Groziou*

*(In an historical order)*

Invasive Cx Ca after conservative treatment, **Lancet 1997**

*Evangelos Paraskevidis*

Long-term risk of invasive cervical cancer, **Int J Cancer 2005**

*Theodoros Panoskaltis*

Risk of Cx & Vaginal Ca after Tx, **BMJ 2005** (Strander **BMJ 2007 & 2014**)

*Ilkka Kalliala*

Incidence and mortality from Cx Ca and other malignancies after treatment of CIN, **Ann of Oncol 2020**

*Sarah Bowden*

The Crypt Theory, **EJOGRB 2021**

*Antonios Athanasiou, Evangelos Paraskevidis*

Elimination of reserve cells for prevention cervical cancer, **Virus Res 2023**

*Olaf Reich*

Long term risk of prematurity v. risk of Cx Ca: a NETWORK Meta-analysis, **Lancet Oncol 2022**

*Areti Angeliki Veroniki, Antonios Athanasiou*

19:50 -20:50

## DISCUSSION PANEL

**Chairs:** *Evangelos Paraskevaïdis, Joe Jordan, Maggie Cruickshank, Alexandros Mortakis*

**Can treatment modalities and colposcopy technique improve adverse long-term outcomes?**

**Have we got the balance of risk, right?**

**Improving risk stratification to select for treatment.**

**Treatment techniques:**

- Do current methods recognize the pathophysiology of disease?
- Is preterm birth risk inevitable or preventable?

**Commentators:**

*Evangelos Paraskevaïdis, Joe Jordan, Walter Prendiville, Pierre Martin-Hirsch, Peter Sasieni, Vesna Kesić, Wiebren Tjalma, Joseph Monsenego, Jean-Luc Mergui, Marc Arbyn, Mara Kyrgiou, Jacob Bornstein, Deirdre Lyons, Maggie Cruickshank, Xavier Carcopino, Theo Panoskaltzis, Robert Jach, Olaf Reich, Andrea Ciavantini, Anna Batistatou*

**Future Research (preterm delivery, post-op invasive cancer) that might result in improvement of outcomes**

*Marc Arbyn, Mara Kyrgiou*
